

Project Engineer

Remuneration:	market-related
Location:	Johannesburg
Job level:	Junior/Mid
Type:	Permanent
Company:	Ad Talent Africa

Who are we: A company specialised in the production and distribution of materials essential for various industrial applications.

Who are we looking for: An experienced project engineer

What will you do:

The project engineer works to plan projects, establish project criteria, coordinate project reviews, and ensure the proper implementation of project elements. Essential Functions: Preparing, scheduling, coordinating, and monitoring of assigned engineering projects.

Functions include:

- Generating proposals and reports
- Liaison with the different internal departments to ensure the smooth execution of project plans
- Complete technical surveys
- Managing and facilitating various projects
- Monitoring projects budgets, schedules, plans, and reporting on the project's status.
- Understanding of applicable procedures, policies, standards, and best practices in line with the company's QMS system
- Compilation of technical reports / proposals
- Performing process capability studies
- Conduct time / work studies
- Facility layout and design
- Reviewing the engineering tasks and initiating the necessary corrective actions.
- Developing specifications for the project's needed equipment.
- Creating frameworks to measure the project's metrics and data collection.
- Establishing field test methods and methods for monitoring the quality of those tests.
- Ensuring the project's compliance with the applicable codes, practices, policies, performance standards, and specifications.

What do you need:

- Senior certificate – Matric with maths (not maths lit)
- Diploma / degree in project engineering / project management / industrial engineering
- Ability to read and understand technical drawings
- Competent with Microsoft Office (Word, Excel and PowerPoint)
- Excellent verbal and written communication skills

- Attention to detail.
- 2-5 years' experience in a similar role
- Reliable transport
- Reliable, highly motivated, and confident attitude
- To be able to perform well under pressure, must possess a high stress tolerance
- Well organised
- Willing to work overtime when required
- Must have excellent time management skills
