

McCain supports Helping Hands initiative in Delmas

In support of the Helping Hands initiative, McCain South Africa has donated R50,000 to help clothe children in Delmas this winter. The initiative aims to provide winter school uniforms to children, who miss days of school because they do not have warm clothes to wear, in the area.

To date, the initiative has helped provide more than 320 children with winter warm essentials. The R50,000 donation will go towards providing 100 children, from four different schools in the area, with winter jerseys, socks, and shoes.
