

Join the modern workplace with Microsoft Office 365 and Tarsus on Demand

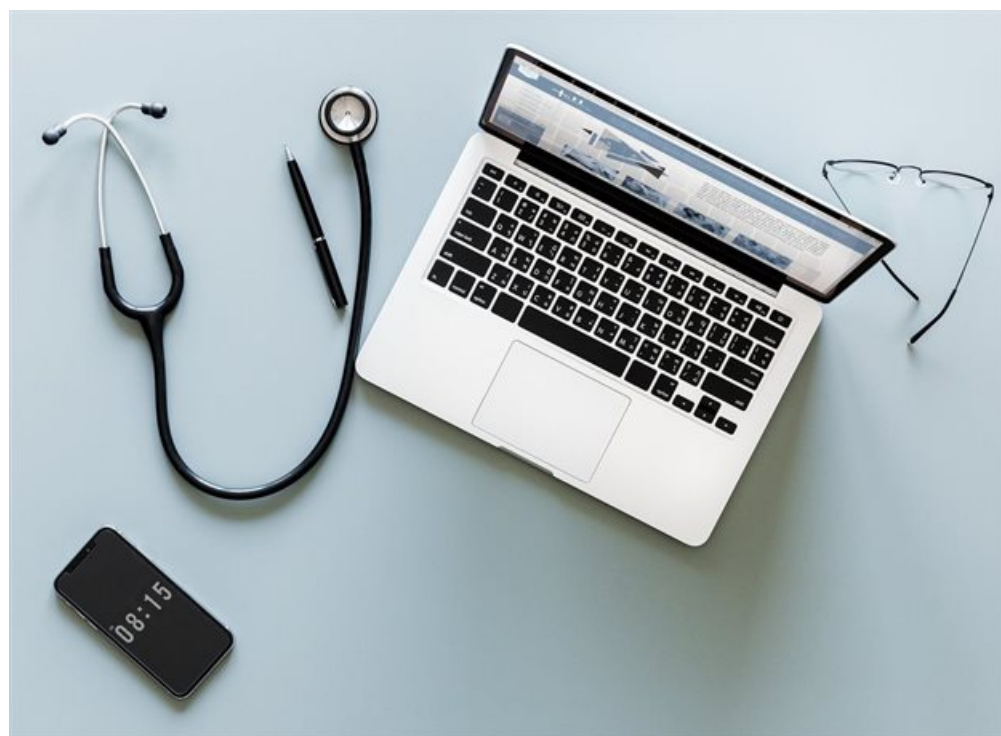

Issued by [Microsoft](#)

2 Dec 2019

Struggling with admin, patient bookings, and general time management? You don't need to, when one software suite can solve it all. **Join the modern workplace with Microsoft Office 365 and [Tarsus on Demand](#)!** We'd love to introduce you to an incredible business solution that will not only save you time but allow you to focus your attention on the things that matter - like your patients.

Focus on your patients, don't lose your patience. Have more time for your patients while Microsoft Office 365 helps you manage patient bookings and keep your patient records secure.

Get one software suite to reduce admin and save you time.

That's where Office 365 comes in, designed for busy medical professionals to ease their admin and improve their time management. We call it the modern workplace. But the Office 365 suite isn't just a word processor - **it's a sophisticated**

platform that can help you:

- Securely and efficiently store patient information
- Schedule and manage appointments in a customized booking system
- Access your files anywhere, anytime
- And so much more!

If you'd like to hear more about how you can use digital tools like this to manage your time, patient information, and grow your business, we are here for you. [**Discover Office 365 and join the Modern Workplace now.**](#)
