

All the 2008 SA E-Commerce Awards winners

The winners of the 2008 South African E-Commerce Awards, hosted by Jump Shopping, were announced yesterday, Monday, 10 November 2008. Winning the most awards this year was eDreams.co.za.

This year's awards carried the same format as the previous years: the public first nominated their favourite South African Online stores in 20 different categories and once a list of nominees had been published, the public and a panel of judges cast their votes, which numbered over 10 000. The votes were split 49% from the public and 51% from the judges.

Look and Listen recently launched its striking new website which bagged it this year's Best E-Commerce Website award, while eDreams won the most awards by taking the Best Computer Store, Best Home and Garden Store and Best Kids and Baby Store categories.
